

## GENERAL NOTES

This Standard is used where at any time, any vehicle, equipment, workers or their activities will encroach on the pavement during widening operations.

\* Minimum distance is 60 m (200'). Maximum distance to be determined by the Engineer but in no case to exceed the length of 1/2 day's normal operation.

\*\* Signs are not required if distance between work operations is less than 600 m (2000') unless restricted sight distance exists.

Two flaggers are required for each separate operation.

All dimensions are in millimeters (inches) unless otherwise shown.

## SYMBOLS

- Work area
- Active Work area
- Sign
- Barricade, drum, or vertical panels
- Flagger with traffic control sign
